RiseCoin (RISE) – Whitepaper

RiseCoin is a community-driven utility token designed to empower lightweight DeFi applications and micro-projects on Binance Smart Chain (BSC). With low transaction fees and fast confirmation times, RISE enables seamless participation in decentralized ecosystems.

Tokenomics

Total Supply: 1,000,000 RISE
40% – Community Rewards
20% – Development
15% – Liquidity Pool
15% – Marketing
10% – Team Allocation

Roadmap

Q3 2025: Website & branding live, socials online, contract finalization, whitepaper drafting.
Q4 2025: Token launch – deploy & verify BEP-20 contract, add liquidity on PancakeSwap, publish Whitepaper v1.
Q1 2026: Marketing, airdrops, partnerships, optional audit/KYC.
Q2 2026: Release micro-projects platform prototype; integrate RISE utility & staking.
